Wholesale Water Rates Increase

New Brea Rates Effective January 1, 2013

The City of Brea imports 70 percent of its water from California Domestic Water Company and 30 percent from the Metropolitan Water District of Orange County (MWDOC). MWDOC increased their rates 6.7 percent effective January 1, 2013.

To cover the higher cost of delivering water, it is necessary to increase water rates. The average residential water customer using 14 units of water will experience a \$2.94 per month increase in the cost of water. The new rates are effective January 1, 2013.

***Lifeline Discount**—to assist low-income residents, Brea offers a 20% "lifeline" discount (consistent with Southern California Edison and Southern California Gas programs) to water customers with 1 to 20 units of water usage. To qualify, residents must submit a copy of their Southern California Edison or Southern California Gas bill indicating "D-care" or "Care rate."
