City of Brea

COUNCIL COMMUNICATION

<u>**TO:**</u>   Honorable Mayor and City Council Members

<u>**FROM:**</u>   Bill Gallardo, City Manager

<u>**DATE:**</u>   02/01/2022

<u>**SUBJECT:**</u> Public Hearing to Receive Input Concerning Voting District Maps for City Council Elections and Election Sequencing

RECOMMENDATION

1) Receive a report from National Demographics Corporation ("NDC"), the City's demographic consultant, concerning draft voting district maps and potential election sequencing; 2) Open a public hearing and invite members of the public to provide feedback on the draft voting district maps and the potential election sequencing; and 3) Close the public hearing and provide direction to NDC about any modifications to one or more proposed voting district maps and to the potential election sequencing.

BACKGROUND/DISCUSSION

The City of Brea currently uses an "at-large" election system, in which all voters in the City have the opportunity to vote for candidates for all five (5) seats on the City Council. City Council candidates may reside anywhere in the City, and they each provide citywide representation. A by-district election system is one in which the City is physically divided into voting districts, each with one (1) council member who resides in the district and is chosen by the electors residing in that particular district.

On May 6, 2019, the City of Brea received a notice letter from Shenkman & Hughes, P.C. ("S&H") alleging that the City's at-large election system violates the California Voting Rights Act ("CVRA"). The City and S&H subsequently executed an Extension Agreement, in which S&H agreed to refrain from filing a CVRA action as long as the City took specified steps to transition to by-district elections. In accordance with the Extension Agreement, on June 20, 2019, the City Council adopted Resolution No. 2019-049, declaring its intent to transition from at-large elections to by-district elections for City Council.

Pursuant to Resolution No. 2019-049, the City Council intends to consider adoption of an ordinance to transition to by-district elections in accordance with applicable laws, including Government Code Section 34886 and Elections Code Section 10010. Resolution No. 2019-049 directed staff to work with the City Clerk, City Attorney, a demographer, and other appropriate consultants as needed, to provide a detailed analysis of the City's current demographics and any other information or data necessary to prepare a draft map that divides the City into voting districts in a manner consistent with the intent and purpose of the CVRA and the Federal Voting Rights Act. After conducting a Request for Proposals, on July 20, 2021, the City Council approved a Professional Services Agreement with NDC for Electoral Districting Services. NDC has provided the City with results from the 2020 United States Census, as well as other City

demographics, which provide critical information needed to create voting districts. To transition to by-district elections, the City is required to conduct four (4) public hearings before the final map adoption, which would be due to the Orange County Registrar of Voters by April 17, 2022:

- At least two (2) public hearings before maps are drawn, within a 30-day period
- At least two (2) public hearings after maps are drawn, within a 45-day period
- Ordinance introduction to establish by-district elections and adopt map
- Ordinance adoption at a regular meeting

Accordingly, the City Council held pre-draft map public hearings on September 27, 2021 and October 27, 2021 to receive public input regarding the composition of the district maps and any potential communities of interest. In addition to considering public input received during the public hearings, the City must ensure compliance with the following rank-ordered, state-and federally-mandated criteria, in the following order of priority:

Federal Criteria for Cities:

1. Each council district shall contain a nearly equal population as required by law; and
2. Each council district shall be drawn in a manner that complies with the Federal Voting Rights Act. No council district shall be drawn with race as the predominant factor in violation of the principles established by the United States Supreme Court in *Shaw v. Reno*, 509 U.S. 630 (1993), and its progeny.

California Criteria for Cities:

1. Geographically contiguous
2. Undivided neighborhoods and "communities of interest" (socio-economic geographic areas that should be kept together)
3. Easily-identifiable boundaries
4. Compact (do not bypass one group of people to get to a more distant group of people)

Other Traditional Districting Principles:

1. Respect voters' choices / continuity in office
2. Future population growth

On January 12, 2022, the City hosted a District Mapping Workshop to gather additional public feedback and to educate residents on how to draw and submit their own draft voting district maps using the various mapping tools available. The deadline for members of the public to submit their maps for consideration at this public hearing was January 21, 2022.

A total of seventeen (17) draft voting district maps are attached for City Council consideration. Of that total, fourteen (14) maps were received from members of the public. NDC indicated that three (3) of the fourteen (14) maps from the public, Map 110, Map 111, and Map 114, did not meet the legally-mandated criteria, and NDC has noted the defect(s) on those respective submissions. NDC has also prepared three (3) maps and suggested sequences of elections. In compliance with legal requirements, all of the maps and the accompanying population and demographic data were made available on the City's website, *cityofbrea.net/districting*, seven (7)

days prior to this public hearing. The purpose of this public hearing is to receive a report from NDC regarding these maps and potential election sequencing, and to receive additional public input.

Next Steps
Pursuant to Elections Code section 10010, the City Council must hold at least two (2) public hearings on the draft voting district maps before adopting a final map. Tonight's public hearing completes the first of the two public hearings, and the next public hearing is scheduled for February 23, 2022. Prior to the next public hearing, to further engage with the public in this process, another District Mapping Workshop will be held on February 12, 2022. This workshop will allow the public to provide additional opportunities to comment on the draft maps being considered.

As mentioned previously, draft voting district maps must be available to the public seven (7) days prior to consideration at a public hearing. The deadline for members of the public to submit draft district maps prior to the February 23, 2022 public hearing will be February 14, so NDC can post them to the project website and meet the seven-day posting requirement. Members of the public can go to *cityofbrea.net/districting* to find more information regarding draft district maps and the transition to by-district elections.

After the two required public hearings, the City Council may select a voting district map for adoption. It is anticipated that the February 23, 2022 agenda also will include an item for the City Council to consider introduction of an ordinance to change to a by-district election system and adopt a final map.

Outreach
To engage the community in the districting process, City staff launched a full marketing campaign. Most recently, staff created and mailed out a districting-specific postcard that was sent to every home in Brea, outlining the project's timeline and opportunities to get involved. Additionally, large posters on the districting process are currently being displayed at six (6) bus shelters sign holders located throughout the City and four (4) large kiosks in Downtown Brea. Staff has also created a list of nineteen (19) Frequently Asked Questions (FAQ's) and translated them into Spanish and Korean. Staff continues to maintain updated information on the City's dedicated districting website, *cityofbrea.net/districting*. Community outreach has been conducted via email, print signage at City facilities, social media, the City's cable channel, water bill inserts, City newsletters, letters to businesses, and announcements at City Council, commission, and committee meetings. Public hearing notices are available in three languages: English, Spanish, and Korean and are published in three (3) local newspapers: *The Orange County Register*, *Excelsior California*, and *The Korea Daily*. The City also established a specific email address for members of the public wishing to submit feedback via email, which is: districting@cityofbrea.net. Additional outreach efforts will continue throughout the districting process. Staff invites the public to spread the message to friends and neighbors to help inform the process.

RESPECTFULLY SUBMITTED:
William Gallardo, City Manager
Prepared by: Victoria Popescu, Deputy City Clerk and Melissa Davis, Management Analyst
Concurrence: Lillian Harris-Neal, City Clerk and Terence R. Boga, City Attorney
